Description of services

Software development consulting services provided under Independent Contractor Agreement dated January 8, 2024. Payments reflect full-year compensation per quarterly invoices #INV-Q1-2024 through #INV-Q4-2024.

Important: As an independent contractor, you are responsible for self-employment tax (SE tax) on this income. File Schedule SE with your Form 1040. Consider making estimated quarterly tax payments (Form 1040-ES) to avoid underpayment penalties.

What to do with this form

- Report this income on Schedule C (Profit or Loss from Business) of your Form 1040.
- Calculate self-employment tax on Schedule SE (15.3% on net earnings up to \$168,600).
- Deduct one-half of SE tax on Form 1040, Schedule 1.
- Keep this form for your records — you may need it if the IRS questions your return.
